MESSAGE

By organizing its 5th Biennial International Conference on Nascent Technologies in Engineering, ICNTE 2023, Fr. Conceicao Rodrigues Institute of Technology is taking a step forward in promoting quality research in various engineering fields. It is a matter of pride that this college is consistently organizing events such as this conference which would lead further the scientific temper of the community.

ICNTE 2023 is a platform where participants from all over the world will be given an opportunity to showcase innovative and exceptional ideas. I am looking forward to an increase in the papers presented by the student community, so that these fresh young minds will fill the gaps that are there in society with their innovative thought and creativity.

Congratulations to one and all who are a part of the making of ICNTE 2023. Felicitations to the Principal, Dr. S. M. Khot for generating enthusiasm in his team. Best wishes to all the participants of this international conference. I expect more such events to take place in the future!
